

PORSCHE PUSHER NEWS

Western Michigan Region PCA

July 1970

Approximately 30 members and guests enjoyed a most scenic and Porsche-type road rallye laid out by Pete Goodspeed. We started from Mary and Bill Tuttle's Floral Shop, only emphasizing the lack of their presence. As most of you know, Bill is now home recuperating from a heart attack. He's looking good and I'm sure we're all looking forward to his participation as soon as he can.

John Alexander, crutches and all, was seen by the poolside with a stein of suds. Ted Goodwin even abandoned his crutches to try the water.

Rallye trophies were won by Dan Conklin and guest, the Wayne Irving family, and Bill Schwalm and guest. Bill Schwalm is now sporting a pair of BMW's, the newest the 2800 series, and had to rally in his guest's car.

Don't miss out on this event next year. Best yet, don't wait till next year. We're having another social this month.

Clare Eggebeen (911E) and I ('55 Speedster) were among fifty members and guests attending a two day drivers' school at Blackhawk Farms in Rockton, Illinois. This is a relatively new track 1.9 miles long with 8 turns. Race prepared 4 cylinder Porsches turn about 1:30 vs. the 1:45's I turned.

Being passed in a sweeping right by the 906 of Mervin Rosen (shown on page 7 of the May Panorama at Sebring) is quite a thrill, or should I say scare. The roaring sound of six Weber carburetors made me think he was going to suck me up his intake.

However the real purpose of these driving schools is not to make a race driver out of you, but teach you to enjoy the fun and safety potential built into a Porsche.

Our next fun event is July 18.
