Dan Phillips  
President, Western Michigan Region

Spring is here!! Wait...what's that? We just had snow again two weeks ago? Well, that was then. This is now. This weekend is supposed to be warm enough to put the top down. Plus, I have green stuff growing out of my garden. Spring is here. Now hand me that tire iron - the summer tires are going back on. With a new driving season upon us (otherwise known as 'Orange Barrel Season' in Michigan), I'd like to bring two things of special importance to your attention.

First, there will be a PCA dues increase from \$42/year to \$46/year. You won't see this increase until the next time you renew. PCA has not had a dues increase since 1999, and must do this to continue to cover operating costs.

Second, there are some really, really great events going all this summer - and every summer - involving Porsches and PCA. We've made a partial list of the big hitters on page 7, a lot of them look like a ton of fun. There's the swap meets in Farmington Hills and Hershey, PA, concours at Meadowbrook and Dayton, Parade, Escape, Boxstoberfest, etc. The Allegheny Region will even pay any WMR member's entry costs to the Pittsburgh Vintage Grand Prix, a tremendous motoring event.

There are also a TON of Autocross and Driver Education events with all of our Zone 4 partner regions, all you have to do is sign up and go. These other regions would love to see you at their events. We've posted a few of the earlier ones in the calendar on page 7, and we'll have a more complete listing next month. For more details, visit the Zone 4 website at zone4.pca.org, and click on the links to other regions. They all have calendars posted online. With something like 2 or 3 AX events every month, and at least 2 DEs a month, you'll have no trouble getting track time. We look forward to a great summer motoring with you!!

## **March Dinner Drive to the Grattan Bar**

*Submitted by Dan Phillips*

Fish during lent? No problem! All WMR PCA members had to do was join us at the Grattan Bar for their famous all-you-can-eat fish-fry on Wednesday, March 10th. The place is always full on fish night, and our night out was no exception. They reserved a very long stretch of tables for our group of nearly 30, and everybody had a very nice time. There's nothing quite like some delicious hot fish and chips and some ice-cold beers to share among Porsche friends old and new. And one brave soul (your lovely editor-in-chief) even drove her Porsche!

# Porsche to Sponsor “Allure of the Automobile”

## 18 of the World’s Finest Vehicles to be Displayed, Including One-of-a-Kind Porsche Type 64

ATLANTA, February 3, 2010 - When a nationally renowned fine art museum is showcasing cars as masterpieces of art in your home town you pay attention. When you are Porsche you become a patron and help welcome the cars that represent the industry’s most incredible designs.

The High Museum of Art exhibition, called, fittingly, the “The Allure of the Automobile,” is sponsored by the famous German sports car company, headquartered in Atlanta, and will feature some of the world’s most rare and spectacularly conceived vehicles ever produced. Among these exquisite collectors items from both sides of the Atlantic will be a 71-year old Porsche design that is considered the precursor to all Porsches-the 1938/39 Porsche Type 64.

This incredible design piece is the only prewar Porsche and has never been exhibited outside of Germany. It will be carefully removed from its perch at the Porsche Museum in Stuttgart and flown to Atlanta for the exhibition that begins on March 21 and ends on June 20. Porsche is also displaying another historic car, the 1953 Porsche 550 LeMans coupe, which will be on loan from the private Collier Collection of Porsche in Naples, Florida.

Sometimes referred to as “rolling sculptures,” the incredible cars of the show are a mixture of innovative engineering, uncompromising workmanship and breakthrough design. When viewed as pieces of art, they give admirers a completely new way of looking at the great design periods of our time, spanning the movements from the 1930s to the mid 1960s.

“Our visitors will be surprised to find that today’s vehicles come from a legacy of beauty and innovation comparable to the finest decorative arts that may be found in museum collections,” said Michael E. Shapiro, Director of the High Museum of Art. “This exhibition will showcase the greatest feats of engineering and luxury design from 1930 to 1965, when cars became synonymous with success, power and wealth. Created for the privileged few, the luxurious, custom-built automobiles embodied speed, style and elegance, and influenced art, architecture, fashion and design.”

“The Allure of the Automobile” is being sponsored by Porsche Cars North America (PCNA), which is headquartered in Atlanta and is celebrating the brand’s 60th anniversary of selling cars in the U.S. “The partnership with the High Museum of Art, one of the world’s renowned art museums, is a perfect fit for us,” said Detlev von Platen, President and CEO of PCNA. “This incredible exhibition, ‘The Allure of the Automobile,’ is a celebration of ground-breaking design and engineering -- a theme that resonates throughout our brand.”

As a focal point of the exhibition, the one-of-a-kind Porsche Type 64 is a unique object in automotive history. It is unlike any other car on display; in fact it is not actually a car at all, but a hand-built, aluminum shell that represents the essence of Porsche design. Even today, when new Porsches are being developed, designers still look to the Type 64 to remind them of the brand’s unique legacy.

As part of the “The Allure of the Automobile,” the Type 64 will be joined by an iconic list of the world’s finest cars from the “golden age of automobile design.” These include masterpieces by Bugatti, Duesenberg, Jaguar, Mercedes-Benz, Ferrari, Pierce Arrow, Packard, Cadillac, Tucker and others. This first-of-its-kind presentation traces the evolution of the motorcar from the mid 1930s to the mid 1960s, examining the contrasts between American and European design, the influence of decorative arts and design and the significant changes in automotive styling and engineering both before and after World War II.

“Until World War I, most cars had been utilitarian objects with one principal goal: transportation,” said Ken Gross, guest curator of the exhibition. “But as tastes and wealth coincided, designers could create and/or customize an automobile’s body, dramatically altering its silhouette and decoration and producing artful, one-of-a-kind objects. Lavish and often beautifully trimmed with aluminum, chrome, inlaid wood and lacquer, the streamlined silhouettes of the finest mid-century cars represent prime examples of Art Moderne design.”

While the first part of the exhibition will spotlight the custom coachwork, art-inspired styling, luxury and opulence marked vehicles from the pre-war era, the second segment of the exhibition focuses on how the industry shifted in the post-war years, with the Europeans moving towards smaller, sportier models, while the American manufacturers concentrated on mass-producing cars for a booming economy.
