Vom Schreibtisch des Präsidenten

Dan Phillips
President, Western Michigan Region

This will be my last column as President of the Western Michigan Region, Porsche Club of America. I wanted to thank all the many members, chairpersons, and officers of this club for a fun and enriching experience as club President, with many lessons learned that I will carry forward into my life's many other endeavors. I'm really glad I chose to get more involved with the club as I have, and I hope many of you will choose to do the same. I will continue to be involved in many club events, and I have also volunteered to continue publishing Über Alles for the foreseeable future. So...I'll see you around!!

As I transition into a more limited role as past-President, I ask you to welcome and support our incoming President, Mr. John Walters. John has been our Vice President for the past 2 years, and I look forward to seeing how the club evolves and grows under his leadership. John and his wife Marshall are long-time Porsche enthusiasts, and even drive one of those "real" ones... you know, with the noisy air-cooled powerplant hanging out behind the rear axle. They're a great pair and a lot of fun.

At the same time, we also welcome our incoming Vice President, Mr. Len Gawron. Relatively new to the club, Len has been a passionate member since joining us, and he and his wife Bonnie have hosted several events including a great weekend tour of Detroit auto history last Memorial Day weekend, and they co-hosted this year's fall color tour together with Jim & Ardis Schaaf. Len is a very kind, outgoing and gregarious guy, and it will be a real pleasure to have him as a leader of our club.

We're also extremely happy to have Amber Door and Brenda Hildon-Kaempf continue in their roles as Treasurer and Secretary of the Western Michigan Region. These two ladies have more talent in their little toe than most people do in their whole body, and we are truly lucky to have them on our team. We owe a lot of thanks for the tireless work they do.

The WMR PCA board wishes to extend special congratulations to Denny and Joyce Weise on their **30-year anniversary** as PCA members. Denny and Joyce have been important core members in the Traverse City area for many years, and have hosted multiple events. We sincerely appreciate their contributions to the club over the years. Congratulations!

From the Editor: A little Porsche Trivia! In researching our colors for this month's cover, I learned that the Porsche 959 was sold in Guards Red, in addition to silver, black and white. However King Hussein of Jordan ordered one in a custom British Racing Green. It now resides in Amman's Royal Automotive Museum, his personal story told through the medium of cars.

Upcoming Events: January

11 Jan **January Dinner Drive to Leo's Seafood Restaurant, Grand Rapids, MI** *Host: Rick Riley*

Greetings and happy holidays! Once the holiday season has slowed down, we'll be in the doldrums of deep winter, so what better way to shake off the snow, bring out the ol' Porsche (with snow tires, of course) and join your fellow Porsche enthusiasts for a great dinner at Leo's in downtown Grand Rapids?

This has become a tradition over the years, and it's one we love because of the great food, great service, and of course the fun of being with Porsche club friends in a beautiful setting. And maybe the great seafood reminds some of us of summer too... You can even park in the structure above the restaurant and walk inside without ever going outdoors - who could ask for more?

When: Wednesday, 11 January 2012
6:00 pm for drinks, 6:45 pm for dinner

Where: Leo's
60 Ottawa Avenue NW
Grand Rapids, MI 49503-2646
(269) 375-2105

Please RSVP by Monday, January 9th to Rick Riley at rick.riley@grandxray.com.

14 Jan **Zone 4 Group Outing to the 2012 North American International Auto Show** *Hosts: Dan & Ren Phillips*

For a second year, our Zone 4 representative Ron Carr is working with Porsche Cars North America to host a one-of-a-kind event for Zone 4 PCA members at the Porsche stage at the 2012 NAIAS. This year, they are planning a more organized and special event for PCA members, so you won't want to miss out.

The weekend is likely to include an optional overnight stay and dinner with Ron and other Zone 4 members, so our group will be traveling most likely on Friday night, Jan 13 to the destination hotel. Since those details are not ironed out just yet, stay tuned to this space and the WMR website + emails for updates. If you plan on attending just the show on Saturday, you will most likely still have to RSVP to Ron for that because space will surely be limited in the exclusive Porsche VIP area.

If you wish to participate, the tentative details will be:

- Meet at Cascade Meijer parking lot at approximately 3:00 pm on Friday, January 13th.
- Drive together to destination hotel; arrive, check in, get ready for drinks & dinner out
- Saturday shuttle to Cobo Hall, meet at Porsche display at pre-determined time
- Enjoy rest of day at show on your own; shuttle departure back to hotel at pre-determined time

No need to RSVP for the group drive-down, just show up on time. (However, you'll probably still need to RSVP to Ron Carr separately if you are attending the show portion...more details to follow!)

In Review: November Dinner Drive to Martell's

Text by Amber Door; Photos by Amber Door and Dan Phillips

November 10th brought the first snowfall to Michigan. But, because this is Michigan, by November 12th the weather had warmed up and there were more than a few Porsche's driven to Martell's for dinner. Making November the 8th month (for the non daily Porsche drivers) of the WMR "fair weather" Porsche driving season!

Marshall & John, Mark & Kathy

Greg Konig and Ola Wettergren

Claudio & Brenda Kaempf

Val & Arnie Axelrod

The evening brought 28 of us, including new members and first time attenders Bob and Rise Landeros, to Martell's located in the beautiful Parkview Hills neighborhood of Kalamazoo. Martell's provided a great setting for catching up with each other, as well as getting to know a few new members, in addition to a wonderful dinner.

TechSpalte: Intermediate Shaft Bearing Failure, Achilles Heel of 1997-2005 2.5l & 3.4l Engines

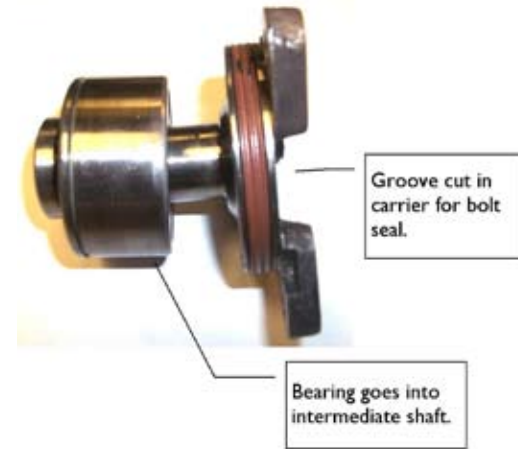

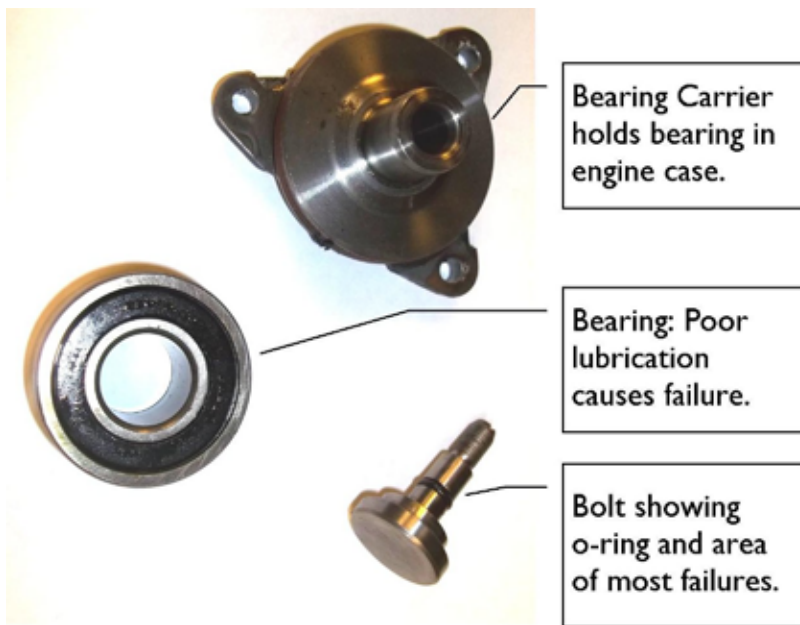

Contributed by Tim Thatcher, ASE-Certified Master Technician and Owner, Euro Autowerks

In years past, cylinder head studs and chain tensioners were the failing components on 911 engines. Now we hear about I.M.S. bearings and cracked cylinder heads. What is an I.M.S. bearing and what happens if it fails?

I.M.S. stands for “intermediate shaft”. The IMS is driven by the crankshaft and drives the camshafts via a chain. The rear of the IMS rides in a bearing which is located on the flywheel side of the engine. This bearing is held in place by the engine case and a circlip or retaining ring. Due to a poor design of the retaining bolt, as well as poor lubrication, this bearing often fails.

If there is a complete failure of the bearing, it will result in the camshafts getting out of time and/or damage to the shaft itself. There is no repair for complete failure without a complete rebuilding of the engine. However, if a failure is found before that point, a new bearing can be installed without completely tearing down the engine. This retrofit bearing is something I would recommend anytime a clutch or transmission is removed from the car. I would also put it on the “recommended maintenance” list.

What are the signs of failure? One sign is a rattle type noise or low growl. A sure sign is metal flakes in your oil filter and filter housing. If you are a “do it yourselfer,” check the filter carefully during an oil service for debris. If debris is found, I would recommend that you do not refill the engine with oil, but rather have the car taken to your repair facility. **DO NOT DRIVE IT!**

One more sign to look for would be oil leaks from what would appear to be a rear main seal. If there is a leak at the bottom of the engine, between the engine case and transmission, it's time for a bearing.

The new retro bearings and bolt are of an improved design which eliminates the weakness caused by the o-ring groove in the original bolt.

If you're a DIY kind of person, you're probably wondering if you can replace the bearing yourself. The answer is yes you can, but it requires special tools and knowledge. With the proper tools, knowledge, time and patience, you can pull the transmission and make the repair.

While failure of this bearing can be catastrophic, early detection may keep repair costs to a minimum. We offer a great discounted labor rate to our Porsche customers and will be happy to make this repair for you.

All of us here at Euro Autowerks wish you and your family a very Merry Christmas and a Happy New Year!

Next month we'll discuss what you should do when you find oil in the coolant or coolant in the oil.

Remodeling by Morris Builders, Inc.

"A remodel is often times more difficult than new construction because of the parameters already in place... Kirk and Joy Morris, and their professional staff, has been committed, conscientious and caring throughout two major remodels in our home in the past two years. Their attention to detail was exceptional. Also was their willingness to work with us when we knew what we wanted, and their experienced suggestions were helpful when we didn't. Morris Builders will help you make your home as unique as you are."
