HOLIDAY SEASON

LETTER FROM THE PRESIDENT

Jim Chiavaras
President, Western Michigan Region

Happy Holidays to All,

As we have entered another holiday season, I hope that everyone is enjoying time with friends and family. It amazes me how fast not only the year, but the decade has gone by. It seems like yesterday that we joined PCA and yet it has been 18 years. We have met so many great friends in this club and attending events is something we always look forward to.

As president for the past year and my second year forthcoming, I would like to thank all of the board members and volunteers whose efforts make our club run smoothly.

I am looking forward to 2020 and judging by the turnout and scheduling of events at our planning meeting it is going to be another fun and active year. I hope all of the members that have recently joined our club will attend several events so they can see what a friendly, social and diverse group we are.

I wish you and your family a happy, healthy and safe holiday season.

See you all at an upcoming event.

All the best,
Jim

ACCESS THE MONTHLY MEETING MINUTES ON OUR WEBSITE.

We're looking for event hosts for 2020

Simply stop by our Monthly Board Meeting, or contact our WMR PCA Social Events Coordinator, Lynne Olenyk, with your event ideas. Lynne will help you work through the details and make your event a success. E-Mail: lynniemarie@charter.net · Phone: (616) 710-0122

JANUARY DINNER DRIVE

PHOTO BY: WB

HOST: RICK RILEY

Are you ready? It's time to kick off the 2019 season of the Western Michigan Porsche Club!

Our first official event will involve eating, drinking and socializing (imagine that)! We will gather at Charley's Crab in downtown Grand Rapids (Free Parking). Please mark your calendars and plan to join your Porsche friends for a fun evening of camaraderie.

WHEN: Wednesday, January 8, 2020
Cocktails @ 6-6:30 (our reserved area is available at 6:30), Dinner @ 7:30

WHERE: Charley's Crab
63 Market Avenue, S.W.
Grand Rapids, MI 49503

RSVP By: Monday, January 6
Rick.Riley01@gmail.com

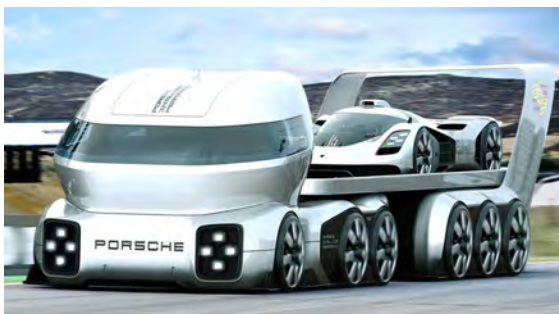

Just in case.....

you don't have plans for the afternoon yet, there is an optional add-on.

There will be happy hour starting at 3:00

Cocktails, Apetizers as an early afternoon optimizer?

Give Rick a challenge and see if he will be there first on this one :)

IN REVIEW: SNUG HARBOR DINNER DRIVE

BY: RANDY PORTOLURI

PHOTOS: AMBER DOOR

We want to thank everyone who came to our dinner at Snug Harbor on the 16th of November. There was a great turnout of 25 members with two actually driving their Porsche's. One couple was brave enough to drive their 928. Our older Porsche's were already in storage. True dedication for sure.

The view of the channel was like a picture post card. The view of the recently reconstructed and re-lit catwalk was quite a sight. It was a night of great food and fellowship.

Porsche G.P.F. Filters for The GDI Engine

Most of us are familiar with the term “DPF filters” which are used on our diesel-powered vehicles and the requirement of occasionally adding D.E.F. However, I’m often asked if we need to add D.E.F. to our G.P.F. equipped GDI engines. Let’s take a moment to look into the circumstances surrounding this question.

First let me warn you that we will be entering the world of automotive acronyms, so you might want to get a fresh cup of coffee before continuing. I am also going to forgo entering all of the appropriate periods in my acronyms to save time and space. You can see the meaning of each acronym with proper punctuation, in the attached chart. Let us begin.

DEF has been used to burn off PM in diesel DPFs for some time. The reason for this is that in order to burn the PM out of the DPF, a temperature of 600° Celsius is needed. Diesel exhaust runs much cooler than it’s counterpart in GDI engines, therefore a method is required to raise the temperature in the DPF. To accomplish this, DEF is injected into the PDF when the DPS sensor reaches a certain point. The DPS and HTS sensors tell the ECU when to clean and for how long.

Porsche Particulate Filter

GPFs work in the same manner, only due to the amount of oxygen that a GDI engine can deliver on deceleration and the extra temperature that is created in the GPF by it, temperatures rise to the required 600°. This temperature is again adequate to burn off the PM in the GPF. This process of burning off the PM in the GPF or DPF is known as regeneration. Without this process the GPF and DPF can become plugged causing drivability issues (poor running).

If an outside influence is needed to clean the GPF on GDI engines equipped with a GPF, the ECU will do this by retarding the spark and modulating the air/fuel ratio. This ability eliminates the need for a DEF type fluid on our GPF equipped GDI engines.

As you finish your coffee, consider the changes that have occurred in vehicles over the past years. If you’ve never been to the Henry Ford Museum in Dearborn, MI, you owe it yourself to visit it. The displays of early engineering and scientific exploration by Henry Ford and Thomas Edison are fascinating. Obviously, Ferdinand Porsche would be right at home with Mr. Ford and Mr. Edison.

I’m looking forward to seeing each of you at Winterfest the evening of February 15th. Winterfest is always a great time to catch up with friends and meet and make new ones.

All of us here at Euro Autowerks wish each of you a very Merry Christmas and a Happy New Year.

See you next year,

Tim

Acronym Guide

- GPF– Gas Particulate Filter
- GDI – Gas Direct Injection
- DPF– Diesel Particulate Filter
- DEF– Diesel Emission Fluid
- PM – Particulate Matter
- DPS– Differential Pressure Sensor
- HTS– High Temperature Sensor
- ECU– Engine Control Unit

GILMORE CAR MUSEUM SUNDAY LECTURE SERIES FEATURING LORI SCHUTZ

The Gilmore Car Museum in Hickory Corners, Michigan has invited Lori Schutz, the daughter of Peter Schutz, as our guest speaker for the Sunday Lecture Series. Peter, was the CEO of Porsche AG from 1981 to 1987. Lori is currently the Zone 4 Representative of the Porsche Club of America and a popular guest speaker at many Porsche club events. Peter was instrumental in turning around Porsche AG during the early 1980s and is credited with saving the 911. Lori will share with us the success stories of her late father at Porsche AG and will bring copies of Peter's book, "The Driving Force" for sale at a discount price of \$25.00 - (portion of proceeds go to the Komen Foundation).
